

Dear Partners:

During 2010, the Florida Department of Transportation (FDOT) and its partners have worked to update the 2060 Florida Transportation Plan (FTP). The 2060 FTP is a plan for all of Florida – including local, regional, and state partners who make decisions about future transportation investments.

Throughout this process, FDOT has provided opportunities for the public and partners to provide input to this Plan. After a year of hard work by the Steering Committee and with your valuable input, the final draft 2060 FTP is ready for review and comment. The public comment period is open from October 20th to November 22nd. Following comment and appropriate revisions, the 2060 FTP will be adopted by the Secretary of FDOT.

Access the draft 2060 FTP [here](#). Comment may be provided in the following ways:
