Statement By:
Bob Burleson, President, Florida Transportation Builders' Association
Regarding Announcement of New FDOT Secretary Ananth Prasad

“On behalf of Florida’s transportation building community, we congratulate Ananth Prasad for his well-deserved appointment to serve as the newest chief of the Florida Department of Transportation (FDOT). Florida Transportation Builders’ Association also applauds Gov. Rick Scott for selecting such a high-regarded veteran of Florida’s transportation authority to be promoted to this principal position. Florida is facing challenging times and FDOT plays a significant role in the kind of private-sector job creation that this state desperately needs. Ananth is aware of Florida’s long-term and immediate transportation struggles as well as its’ advantages and we are certain he will continue to be a positive force within one of the state’s most important agencies.”
